SENS ANNOUNCEMENTS

SELECTED RELEASES

REMGRO LIMITED – Updated trading statement

Shareholders are advised that Remgro’s headline earnings per share (“HEPS”) from continuing operations for the year ended 30 June 2021 is expected to be between 494.2 cents and 524.9 cents compared to the HEPS from continuing operations of 307.5 cents reported for the year ended 30 June 2020 (an increase of between 61% and 71%). The headline earnings from continuing operations for the comparative year ended 30 June 2020 were significantly impacted during the second six months to 30 June 2020 by the Covid-19 pandemic and the resultant lockdown measures as well as by a once-off donation of R500 million to The South African SME Relief Trust. From this low base, the expected increase in headline earnings from continuing operations for the year ended 30 June 2021 is mainly due to the recovery of the earnings of most of Remgro’s underlying investee companies. This expected increase is partly offset, mainly by a lower contribution from Mediclinic International plc (“Mediclinic”) (Mediclinic’s contribution includes the full impact of the Covid-19-related lockdown measures on its results for the year ended 31 March 2021). However, total HEPS is expected to be between 494.2 cents and 524.9 cents compared to the reported HEPS of 560.6 cents for the year ended 30 June 2020.

ATTACQ LIMITED – Trading statement

Shareholders are referred to Attacq’s distributable income per share (“DIPS”) of 73.0 cents for the year ended 30 June 2020 (“prior financial year”), previously reported as 73.1 cents and subsequently updated in accordance with the SA REIT Association Best Practice Recommendation Second Edition adopted by Attacq for the year ended 30 June 2021 (“current financial year”), and its dividend per share (“DPS”) of 45.0 cents for the prior financial year. The DPS for the prior financial year comprised an interim dividend in respect of the period ended 31 December 2019 with no final dividend having been declared after due consideration by the board of directors of Attacq’s capital structure and liquidity, and taking into account the uncertainty regarding the continuing impact of COVID-19, and the weak economy. Attacq advises that DIPS for the current financial year is expected to be 46.8 cents, a decrease of 35.9% when compared with the prior financial year. The decrease is primarily attributable to the non-receipt of dividends from its investment in MAS Real Estate.

EUROPEAN MARKET COMMENTARY

SELECTED HEADLINES

European stocks closed higher on Monday, with investors continuing to weigh up the European Central Bank's latest policy decision and inflation data. The pan-European Stoxx 600 provisionally ended the session up 0.3% after the benchmark slumped 1.2% last week. Oil and gas stocks led the gains on Monday, adding 2.8%. European traders continued to digest the European Central Bank's decision last week to slow down bond-buying under its pandemic emergency purchase programme (PEPP) in response to higher inflation and stronger GDP growth across the euro zone.

The Dow Jones Industrial Average gained Monday as the index rebounded from a five-day losing streak. The Dow rose 261.91 points, or 0.8%, to 34,869.63. The S&P 500 closed up 0.2% at 4,468.73. The two major indexes both finished the day positive for the first time in the past six sessions. Inflation fears have contributed to the market's recent losses. Data released Friday showed that producer prices rose 0.7% in August and 8.3% year over year, which was the biggest annual increase since records were first kept in November 2010.

Shares in Asia-Pacific were mixed in early morning trade today as investors look ahead to the release of U.S. consumer inflation data for August. In Hong Kong, China Evergrande Group's stock plunged more than 6% after the embattled property developer on Tuesday flagged expectations for a "significant continuing decline in contract sales in September," with dampened confidence after negative media reports surrounding the firm.

COMMODITY MARKET COMMENTARY

SELECTED HEADLINES

Gold prices edged lower this morning as a stronger dollar crimped bullion's appeal ahead of U.S. inflation data that could offer cues on the possible timeline for the Federal Reserve's tapering. Oil prices extended gains earlier today, hovering near a six-week high, on signs another storm could affect output in Texas this week even as the U.S. industry struggles to return production after Hurricane Ida wreaked havoc on the Gulf Coast.

The rand gained on Monday, benefiting from an easing of local coronavirus lockdown restrictions. At the end of the session, the rand was trading around R14.14 to the dollar or 0.47% firmer. President Cyril Ramaphosa announced the loosening of restrictions in a televised address on Sunday, shortening a nationwide curfew and extending the hours of alcohol sales as new infections decline. South Africa has been the worst-hit on the African continent in terms of reported COVID-19 cases and deaths, with its economic recovery hampered by a slow start to its vaccination campaign.
